4. New Business  
Formed.org – web based service which provides a collection of religious material. Costs approximately \$1750 annually; monthly payments include a service charge. Information could be used across parish ministries and with various school groups. Questions include availability of monthly subscription, refunds if service cancelled prior to contract expiration, driving traffic to the site. A parish liaison would be worthwhile to keep parish informed of relevant materials and driving traffic to site. Several Faith Life members are testing the site and providing feedback.
